

## MOCK INTERVIEWS = REAL RESULTS

### Real world experience!

- Christian Job Corps offers real world interactive interview experiences through our "mock interviews"! We invite leaders and professionals from a variety of industries to perform mock interviews with our students. Everything is simulated as closely as possible to what you'd expect on a real interview and students are rated on their performance. Upon completion, students receive valuable feedback, tips, and advice from these professionals that help to equip them for future interviews.

### Proven Benefits!

- Mock interviews help to build confidence.
- Mock Interviews help alleviate any stress and anxiety surrounding the interview process.
- Provides insight on picking up on verbal and non-verbal cues.
- Helps you to identify any areas of weakness in your interviewing skills and prepares you for questions you might not expect.
- Provides a safe space for constructive feedback.

### Do's & Don'ts!

- **DO** - Treat your mock interview as if it's a real interview. Be prepared to explain gaps in your resume, work history, and more.
- **DON'T** ask a question to the interviewer that you aren't prepared to answer yourself. For example, if you ask the interviewer about the potential for growth in their organization, be prepared should they restructure the question to you and ask, "Why is the potential for growth important to you?"
- **DO** dress professionally and treat the interview as if it is real. Doing so will help you know how to manage any nerves that may arise during a real interview.
